Tutoring Experience

Over my 12-year tutoring career, I've worked with students from diverse curriculums, focusing on helping them succeed in subjects such as IB Maths and A-Level Maths. I've guided students through challenging topics like calculus, statistics, and algebra, ensuring they gain a deep understanding and practical application of the material.

In addition to school-level tutoring, I've also supported students preparing for AP Calculus and IGCSE exams. Many of my students have seen significant improvements in their results, and several have gone on to pursue higher education in prestigious universities, solidifying their mathematical foundations.
